Red Dog Mine	<p>Red Dog Mine is the largest zinc mine in the world. The mine is on NANA land and operates under a lease agreement between NANA and the mine operator, Teck Cominco Ltd. In addition to financial terms, the agreement requires Teck Cominco to employ and train NANA shareholders. NANA shareholders generally make up 55 percent of the mine employees.</p>
Employees	<p>2006: 5,440 (Alaska: 2,901; Outside Alaska: 2,539)</p>
Corporate Revenues	<p>2006: \$806 million 2005: \$526.9 million 2004: \$331 million 2003: \$263 million 2002: \$201.9 million 2001: \$172.7 million</p>
Shareholders	<p>NANA is owned by more than 11,400 Alaska Native shareholders of Iñupiat Eskimo descent. Since inception, NANA has paid out close to 100% of its profits to shareholders as dividends. In 2006 NANA and its affiliates paid \$31.4 million in wages to NANA shareholders.</p>
Region	<p>The NANA region is a vast 38,000 square miles located in Northwest Alaska, most of which is above the Arctic Circle. The region is rich with energy and mineral resources, included significant concentrations of coal, zinc, copper, jade, marble, and granite. There are 11 communities, including Kotzebue. More than 90% of the region's residents are Iñupiat Eskimo, descendants of ancestors who settled the land over 10,000 years ago. NANA and the region's main governing body, the Northwest Arctic Borough, share the same boundaries.</p>
